Southern Talk and Items.
The Mobile Register of May 1st cheats itself and its readers with the following delectable romances:

The Massachusetts troops which were so roughly handled by the people of Baltimore, were half armed, badly clothed, and nearly starved. Their Colonel behaved like a dastard, gave his men the order to "run," and sheltered himself under the wing of the Mayor.

At Gosport, where by Lincoln's order the public property was burned, all the accounts show that the naval and military officers and men to whom that Vandal work was entrusted behaved in a most cowardly manner, and all hands were drunk from Commodore Macaulay down.

The five thousand rowdies who have seized Cairo, are represented as the scourgings of the city of Chicago and other Western towns, and they amuse themselves with stopping unarmed boats and stealing hen coups. An eye witness says that one thousand firm Southern men could run them from the town, unless the mosquitoes and chills and fevers save them the trouble in the meantime. Throughout the war so far, not one act of courage, not one symptom of generalship and soldierly feeling or ability have been displayed. Lincoln himself is frightened to death, keeps up his spirits by pouring spirits down; sleeps with his boots on, and his cap and cloak at hand, with his palace filled with armed men to guard his sacred person. The Government, and the military and the press in its service, are exhibiting at every step unmistakable signs of trepidation.

Woe be to the Northern battalions that meet the first shock and outburst of the fiery valor and fierce indignation that have fused in one compact mass the entire Southern mind and heart. If the war lasts five years, the terms of peace will be dictated at the gates of Boston. But the war will not last so long. The day is not far distant when the North will sue for peace. Until it does, the policy as well as the will of the South is to give them war to their hearts' content—war to the knife and to the hilt.

At West Point, Georgia, a company of Jews are organized, and an oath taken by the members requiring half an hour in the reading. A splendid banner was presented to the company bearing the words, "Jehovah nissi"—"God is with us," and the English on receiving it took a solemn oath to plant it on the Capitol at Washington or die in the attempt.

CAMEOS, AND HOW THEY ARE CUT.—Rome is now the chief city of cameo cutting, two kinds of which are produced; those cut in hard stone, and those cut in shell. The stones most valuable for the purpose are the oriental onyx and the sardonyx, provided they have at least two different colors in parallel layers. The value of the stone is greatly increased for this purpose, if it has four or five different colored parallel layers, if the layers are so thin as to assist in making the device of a cameo. For example, a specimen of stone which has four parallel layers may be used for a cameo of Minerva, where the ground would be dark gray, the face light, the bust and helmet black, and the crest over the helmet brown or gray. All such cameos are wrought by a lapidary's lathe, and pointed instruments of steel and means of diamond dust. Shell cameos are cut from large shell found on the African and Brazilian coasts and generally show two layers, one white, and the other either pale coffee color or deep reddish orange. The subject is cut with small steel chisels out of the white portion of the shell. Shells adapted for cameo cutting are dense, thick and consist usually of three layers of differently colored shell material. In one variety of these shells each layer is composed of very many thin plates, that is laminated, the laminae being perpendicular to the plane of the main layer and each laminae consisting of a series of elongated prismatic cells, adherent to their lonides. The laminae of the inner and outer layers are parallel to lines of growth, while those of the middle layers are at right angles to them. In another variety, known as the cowries, there is an additional layer, which is a duplicate of the nucleus layer, formed when the animal has attained its full growth.

A plowman at Knocksharen, county Wexford, recently found concealed in a small case of stone, a statue of curious composition, resembling that of one of Ireland's chiefs of old. It is of exquisite workmanship, and as if clothed in the richest armor. The inhabitants have given it to their landlord, a gentleman residing in the county Limerick.—Wexford Independent.

U. S. TROOPS AT WASHOE.—From a correspondent at Virginia City, dated June 8, 1861, we learn that a detachment of troops headed by Capt. Moore, from Fort Churchill visited Carson City, Silver City and Gold Hill, last night, and Virginia City to-day, for the purpose of collecting arms belonging to the United States. Our citizens were very greatly pleased with the promptness of Gen. Sumner's response to the application for aid against the traitors to our glorious Union. The streets were soon alive with men and women. The troops bivouacked at a stable, over which the stars and stripes are now waving. The brawling, half-drunk sympathizers with traitors became evidently very uneasy, and kept out of sight. Many of their dens were examined, and wherever United States arms were found, they were conveyed to the wagon in which those taken at Carson and other places were placed. By information given to a Mr. Capperton, at Virginia City, by Mr. Curtiss, of Silver City, the arms in the possession of the Secessionists were all taken from their usual repository by the time the troops arrived. There occurred several laughable incidents arising from the arrival of the troops this morning. The really amiable lady of one of the leaders of the Anti-Union loving crowd, on beholding the troops advancing towards her house, exclaimed to her half-dressed husband, "Sam! Sam! into bed and cover yourself up, for the soldiers are coming!" It is supposed that an immediate consultation with the renowned medical Ex-State officer was determined upon, as all parties felt excessively "mean." We are now to have plenty of men and arms to protect the flag of our Union and ourselves. Wells, Fargo & Co. seem very fortunate in having all their agents in this Territory ranting Secessionists.—S. F. Paper.

NIAGARA SURPASSED.—The ceremony of naming the steamer City of New York at Glasgow, lately, was performed by Mrs. Livingstone, the lady of Dr. Livingstone, the celebrated African traveler. At a meeting which took place after the launch it was mentioned that Mrs. Livingstone had, two hours previously, received a packet of letters from her adventurous husband, dispatched from the embouchure of the Zambesi river. Dr. Livingstone and his party had returned to that point, all well, after having accomplished an arduous and successful exploration into the interior of Africa in that latitude. The results of that journey had exceeded his most sanguine expectations, founded as they were on previous geographical knowledge. The Victoria Falls, as they have been named, he had deduced to be 100 feet in height, and about 3000 in width. When he was enabled to survey the actual scene, he ascertained that the height was 310 feet and breadth about 5580. [The height of Niagara, on the Canadian side, is 149 feet, and the breadth 2100 feet; on the American side the height is 162 feet and the breadth 1025 feet. The Victoria Falls are, therefore, about twice the height and 2 1/2 feet broader than the united cataracts of the western world.]

THE YELVERTON FUND.—The Dublin Morning News publishes the following letter, which Sir John Arnott, M.P., has addressed to the committee of this fund:
"LONDON, March 22, 1861.—My dear Sir, I have much pleasure in allowing my name to be added to the committee formed to aid the Hon. Mrs. Yelverton in procuring aid and redress for her cruel injuries, at least the confirmation of her legal title to the name she bears. I beg you will also hand in the sum of ten pounds, for which I enclose an order to the treasurer of the fund. This is a small subscription, but I really believe that I had better not make it more. In a recent instance in which public feeling seemed to be much and greatly excited by a noble act of self-devotion, I contributed a large sum. Whether it acted as a damper rather than a stimulant I cannot say, but certainly the total amount raised fell very short of that I had expected. I trust that in this instance public enthusiasm will prove more enduring, and show more substantial results. Yours faithfully, JOHN ARNOTT."

A COMMUNICATION was also received from Mr. Maguire, M.P., for Dungarvan, offering to serve upon the committee, and both names were added thereto.

A SCIENTIFIC WAY OF DESTROYING A CROCODILE.—The river Indus, in the East Indies, was infested by a large old crocodile who carried off two or three natives, one of them being a woman. Its skin was so thick that no ball penetrated it, so some young artillery officers formed the following plan for destroying it. They killed a sheep, and in its body placed a bag filled with gunpowder and some other combustible matter, to which a long wire was attached, with detonating powder at the end. Presently the crocodile saw the prey and seized it, and carried it to a hole which he was known to frequent. Time was allowed him to swallow the sheep, when the wire was pulled, the water then became violently agitated, a loud report was heard, and up came the crocodile, dead, and his stomach blown up.

SUIT AGAINST HARRY MEIGGS.—William T. Sherman, lately commenced suit in the Twelfth District Court, against Henry Meiggs, David Johnson and Elizabeth Bowles Johnson, to foreclose a mortgage on the property on the north-east corner of Broadway and Montgomery street, given to secure payment of a note for \$6000, with two per cent per month interest, made August 18th, 1853, by Henry Meiggs to Ferdinand P. Chauviteau. Mr. and Mrs. Johnson are connected with the suit in consequence, as the complaint avers, of an interest they hold in the property, subject to the plaintiff's lien.—S. F. Call.

THE OLD LEAVEN.—Gov. Andrews of Massachusetts, and Gen. Butler, lately commanding the troops from that State, have been engaged in correspondence in which a decided difference of opinion has been manifested. The correspondence grew out of the fact that Gen. Butler, while at Annapolis, assisted the State authorities in suppressing a slave insurrection. The Governor was of the impression that the insurrection should have been regarded as a military advantage accruing to the government. Gen. Butler uses this decisive language in his reply:
"I had promised to put down a white mob and to preserve and enforce the laws against that. Ought I to allow a black one any preference in a breach of the laws? I understood that I was armed against all intrusions of the laws, whether by white or black, and upon that understanding I acted, certainly with promptness and efficiency." Notwithstanding the cogent reasons assigned by Gen. Butler for his commendable conduct, his suspension from command was sought to be obtained, and Senator Wilson it was reported for a while, was to supersede him in command of the troops from Massachusetts. In the meantime Gen. Butler has received the appointment of Brigadier General from the government, so that he is placed out of the reach of the "John Brown" Governor of Massachusetts. Col. Jones of the 8th Massachusetts Regiment, at last date, was in command of the brigade from that State.

A DIFFICULTY ABOUT NEWS IN MEXICO.—The Mexican correspondent of the New Orleans Delta writes: "In connection with the decrease of the number of newspapers, the Government has a controversy with M. de Salazar, the French Minister. This gentleman, who has not yet presented his credentials to the Government, has claimed the right of protection over the Sisters of Charity, and has protested against the interference with their properties. The Government, on its part, has published a decree ignoring the existence of any society or institution of the kind that claims the protection of a foreign government, and that is not subject to the laws of Mexico. The dispute between the Government and the French Minister on this subject still continues, and there are reports that this gentleman will return to France in consequence of the unwillingness of the Government to yield to his demand."

HOW THEY SETTLE TARIFF DIFFERENCES IN INDIA.—In the British Provinces in the East Indies, they have an easy way of settling differences between the custom house officers and the importers. If the custom house officers consider the price named for a certain quantity of goods in the invoice too low, they have a right to buy the goods at the price named in the invoice, and the merchant is obliged to sell at that price. In this country importers have to submit to the opinion of the appraisers, and the only alternative left to them is to pay the duty and sue for it afterwards.

PRODUCING SILVER BY ARTIFICIAL MEANS.—It is said that a German chemist has discovered a method by which he produces sterling silver, and a cost of about seventy-five cents per ounce, and that a company is forming to work the discovery on a profitable scale. The appliances required are certain chemical preparations and galvanic apparatus of sufficient power to act on them. Should the experiment succeed on a large scale, the profits will be handsome, and additional weight will attach to the opinion that all metals are resolvable into two or three elements.

Wetmore, Cryder & Co. of New York, have received by the clipper ship Swallow a magnificent court robe of the Chinese Emperor, sold from the plunder of the "looted" palace. Its form is similar to the old Roman toga, of a superbly heavy green satin, lined with yellow silk, which in China is the imperial color, worn only by the royal family. The robe is almost wholly covered by a grotesquely rich design in needle-work, representing a golden dragon revelling in a sea of polychromatic embroidery. A lifetime has surely been carefully stitched into this magnificent vestment.

James Murphy was tried at the Leitrim Assizes for shooting at the Earl of Leitrim last September. This unfortunate man was proved to be insane. For a long time he believed himself to be King of Ireland, and gifted with the power of prophecy. He suspected the Earl of Leitrim of having had improper intimacy with his (Murphy's) wife, and having required that he should clear himself under oath of the charge, the Earl refused. He then fired at his high-born enemy. Murphy was acquitted.

Failures to the extent of \$400,000 have taken place in Brockville, Canada, lately.

Camphor has been discovered to be an antidote for that terrible poison strychnine.

HOLLOWAY'S PILLS AND OINTMENT.—Determination of blood to the head, flushings, palpitation, and shortness of breath are cured by these grand regulations of the heart's impulse. Under Holloway's grand specifics the current of blood throughout the body becomes steady and unchanged by the passing thought—hence the suffusion of the head and cheeks is avoided, and nervous embarrassment prevented. Thus, in like manner, remove excessive sensibility so often the opponent to the ease and grace inherent in the healthful and strong frame, and eradicate the doubts of the nervous. In intellects declining from intense study, free-living, or over anxiety, no equal remedy is attainable. Without exaggeration, they give muscular energy to the paralyzed and ease to the pained.

The All-Important Question.

In vain do we search in the Opening Speech or in the reply, or in the speeches of members of the Assembly, for an intimation that a practicable scheme has been set on foot to establish a weekly line of steamers between this port and San Francisco. Several bills of minor importance have been introduced into the Assembly conformably to the Governor's Speech. Maj. Foster has also given notice of a number of very useful measures. Mr. Crease intends to re-introduce his bill to regulate the legal profession, and thereby put an end to paying lawyers double fees. Mr. Gordon will amend the liquor license law by reducing the rate to £60. Other bills are promised that will, if enacted, quiet irritation and afford relief. But the all-important question remains undisturbed. The question which of all other questions should be the leading feature of the session—regular, speedy, and cheap steam communication with San Francisco—is postponed by Government for Imperial consideration.

The heads of everybody as well as our legislators are filled with very laudable schemes to promote our prosperity, or remove a host of petty grievances. But whilst we are disposed to lend a helping hand to forward all such helps as Industrial Exhibitions, Coast Routes, Agricultural Associations, Volunteer Corps, Reform Leagues, etc. yet these movements can only be regarded as auxiliaries to our happiness and prosperity. "Disquietude," "dissatisfaction" exists. We are now near midsummer; no immigration of any great moment can be expected till early in 1862; and we are told to "wait till next Spring." And of what use will that be! We have waited already spring after spring for immigration, yet comparatively little immigration comes. Is it any wonder then that "disquietude" exists? Need it be a matter of astonishment if "disquietude" increases, when our Assembly proposes to dilly-dally over minor evils; too cowardly to grapple with the great evil, no mail communication, no avenue open to increase our population, nor any scheme broached by authority, on which we may ground even a delusive hope that a living tide will soon set hitherward from more populous communities? When next spring comes, in all probability we will find ourselves in the same lamentable predicament that we are now, if we wait for fostering subsidies from England. Help! help! is the cry, yet no help cometh. Nor is there any great probability of any help coming till we help ourselves.

Already dispatch after dispatch has read us homilies about the beauties and advantages of being weaned so early from parental care; about the glory of battles with all the difficulties that surround our infant communities; about the deep interest Downing Street takes in watching our advancement; and about our ultimate triumph with healthy and vigorous constitutions as self-supporting Colonies. Yet when asked to aid us with a subsidy for a San Francisco steamer, the Duke of Newcastle tells us to do the best we can. The condition of the Imperial exchequer would not authorise him to recommend such an outlay.

We fail consequently to divine the wisdom of trusting solely to Imperial charity. We regard such a trust as next to hopeless, and hold that our true policy is to make provision as speedily as possible for steam communication from our joint colonial resources either by tax, tariff, or loan. If we can obtain extraneous aid, we will be agreeably surprised; but in such a doubtful position as we occupy at present—cut down to fourteen San Francisco steamers a year—the policy of depending solely on Imperial aid is the most unwise one that could ever be inaugurated.

House of Assembly.

FRIDAY, June 28, 1861.

House met at 3 o'clock. Present—Speaker Helmcken and Messrs. Foster, Crease, Burnaby, Southgate, Cary, Gordon, McDonald, Waddington, Tolmie.

Mr. Foster gave notice of the following bills: a Bill to authorise a commission to report what English statutes are applicable to the Colony; a Bill to authorise a public hospital; a Bill to limit the period for the collection of debt; a Bill to abolish imprisonment for debt.

Mr. Burnaby gave notice of a motion that the House consider the late decision of the Supreme Judge with regard to the illegality of the Road Act.

Mr. Crease gave notice of a bill for the regulation of the legal profession; and a bill for the limitation of foreign agents.

Messrs. Burnaby, Crease, and McDonald, committee appointed to consider the reply to His Excellency's speech, reported favorably on the resolution of the House of the day previous.

Mr. Gordon introduced a bill to regulate the

sale of wine, spirituous and malt liquors. The license is fixed at £60 per annum; ale and porter licenses are done away with; druggists are charged £25 per annum for a license to sell alcohol, burning fluid and camphene; inn-keeper in the country (not less than three miles from town,) yearly license £30; brewers selling own manufacture by wholesale, exempt from the provisions of the bill. License to be payable half-yearly, and no license granted for a less period than six months. The bill is intended to prevent all evasions and places dealers on an equal footing. Mr. Gordon asked the assistance of the House in passing the bill quickly.

Adjourned till Monday at 3½ p. m.

THE BRITISH COLONIST

Saturday Morning, June 29, 1861.

All about a Bucket or two of Sand.

Yesterday noon, a large number of citizens assembled at the Police Court room to watch the proceedings in the charges of assault growing out of the attempted removal of some sand from in front of Mr. John Copland's house by Mr. Wm. Muir, which has created not a little talk and tea-ble gossip for a week past.

The charges were two in number, viz: one by Mr. Copland against Mr. Muir, and the other by Mr. Muir against Mrs. Copland. Mr. Ring and Mr. Dennes appeared for Mr. Copland, and Mr. McCraith for Mr. Muir. The Court decided to hear the charge against Muir first.

J. T. Piddell sworn—Gave Mr. Copland some stone, mortar and sand, which had been left over while building his (P's) house; considered that the sand belonged to Copland.

John Copland sworn—On Monday last saw an Indian taking some sand from in front of my residence; told him he would be arrested if he did not desist, and he left; Muir was there giving the Indian directions, and gave me some impertinence; the sand was given me by Mr. Piddell; told one of Muir's friends to tell him not to take any more of the sand; on the afternoon of the same day my wife told me Muir was taking the sand again; went out and told him to stop; he did not stop; Muir said he would take away every drop, and began to shovel it into a bucket; I upset the bucket and kicked it into the gutter, and while doing so in a stooping attitude, with my side partly turned from Muir, I got a sidelong glance of him raising the shovel as if to strike me; my wife was at the door and saw him raise the shovel, and said, "would you strike my husband?" and ran and caught hold of Muir's arms; I was so earnest that I did not pay any attention to his movement—only had a glance; if a ball had whizzed past my ear I was determined to upset the bucket; only upset half a bucket full.

The prosecution sent for Mrs. Copland. The Court hoped the lady would be spared coming into court.

Counsel on both sides concluded that it would be good to let the lady go to the stand.

L. McCraith was called for the prosecution—Saw Mr. Copland in the act of upsetting the bucket, and saw Muir close to him; think Muir had a shovel which he held in a horizontal position from his body; cannot say whether he intended to strike or not; saw nothing like a blow or a thrust on defendant's part; saw Mr. Copland take hold of the shovel.

Mr. Pemberton decided that the evidence was insufficient to warrant a conviction, accordingly dismissed the charge.

Muir vs. Copland.—Mr. McCraith appeared for Mr. Muir, and Mr. Ring and Mr. Dennes for Mrs. Copland.

Wm. Muir sworn—On Monday last was taking some sand out of Langley street and Mr. Copland ordered my Indian to stop doing so; I went to Bailey, the owner of the sand, and he told me I might take it; then went to work at the sand again, and while doing so Mr. Copland came and kicked the bucket over, and Mrs. Copland called out "John knock him down, go into him." Mrs. Copland then caught hold of my coat by the pocket, tore it, and hit me several times on the shoulder; Mr. Copland kicked over my bucket three times; before she left the sidewalk she said, "would you assault my husband?" do not think she wanted to feel my pulse; felt her catch hold of my coat, and then she commenced laying on; if it had been a man I might have acted differently from what I have done; did not know the sand belonged to Copland.

Mr. Ring—Here is a man six feet high and strong in proportion bringing a charge of assault against a slender, weak woman, who rushes forward in defence of her husband. I call upon your worship to dismiss the charge.

The Court said it was not disposed to do so from the present aspect of affairs.

Muir continued—She pulled hard—pulled me backwards; don't know whether she used her knuckles or her open hand when she struck; it was not so much the harm of the assault as its being done in public by a woman that I care about.

Mr. Ring—Would you have brought this matter into Court if it had not been for the ill feeling existing between you and Mr. Copland?

Muir—If and person had suffered as many in-sults from those two as I have I think he would have acted the same.

Mr. N. Hibben—Heard Bailey give permission to Muir to remove the sand.

Wm. Calderwell—Saw the difficulty; Copland upset the bucket three times, and Muir and him had a struggle for the shovel; Muir was very cool—he acted nobly; Mrs. Copland was calling out to Muir, "you are a thief," "you are a liar," and "John, knock him down;" saw Mrs. Copland come up and pounce upon Muir, pull him back and strike him three or four times; I looked on and enjoyed myself; like a little fun as well as any one.

Mr. Hibben, recalled—Was not present at the opening scene, but saw the tragic act, thought Muir only kept hold of the shovel to fill the bucket again; saw no approach to an assault on Muir's side; Mrs. Copland struck gentle little taps on Muir's shoulder with the palm of her hand, and tore the pocket of his coat; thought she gave him the best strokes she could.

Mr. Ring, in a humorous vein, addressed the Court on behalf of his client, amid roars of laughter from the audience, and hoped the case would be dismissed. The blows given were such gentle taps, they could scarcely be called an assault. Some women are hot and impetuous, others are cool and calculating. Mrs. Copland saw her husband in difficulty with Muir, and imagined the spade he held in his hand was to be used to bury the dead body of her husband in the sand; she thought as the bucket had been kicked, her husband was about to "kick the bucket" in reality, so she rushed to the rescue. There is no accounting for the imagination of women; we must make due allowance for her excitability. Mrs. Copland had good reason to suppose her husband in danger, and she seeks to protect him. When Mr. Muir died, Mr. Ring trusted somebody would write his epitaph thus, "Muir acted nobly." No old woman in the court paid with her last tooth more unwillingly than Muir when he admitted that there was no feeling between him and Copland. He trusted his honor would dismiss the case.

Mr. Justice Pemberton, in rendering his decision, said that the fact of the assault had been clearly proven. The circumstances of this case rendered it a very painful duty for him to perform. He felt great regret to pronounce judgment in the case but he must do his duty. If women of this kind enter society and associate with young ladies they are apt to exert a very injurious effect upon their minds. He quite agreed with one of the witnesses that the complainant's conduct was most commendable. Part of this affair is about what I should have expected from school boys. Any penalty the Court might inflict would not compensate society for the injury which had been done to it, and he would therefore leave the ladies of Victoria to pronounce a sentence upon the offender with the offence. The Court would only inflict a penalty of 20 or 30 days in default, one month's imprisonment. At the conclusion of Mr. Pemberton's remarks the audience applauded loudly, and Mr. Copland asked that the Court might in remission of the fine to £5 in order that he might enter an appeal.

Mr. Pemberton declined doing so.

Mr. Copland—Then, sir, I shall appeal to the Governor; this is the first time I have ever known an English Court to refuse an appeal.

Mr. Pemberton—Be careful you commit no contempt.

Mr. Copland—I mean no disrespect to the Court; but I have only one course left for me to pursue.

Mr. Copland then withdrew.

The Court adjourned till 11 o'clock to-day.

THE "BREAKERS."—John Wilson and James Turner, the two sailors who broke from the chain-gang a short time since, but who, owing either to the shortness of their legs or wind, were overtaken and brought back, have been sent for trial to the Court of Assizes.

The Volunteer Movement.

A meeting of the enrolled members of the Rifle Corps was held last evening at Moore's Musical Hall. Some 200 persons were in attendance. G. M. Sprout, Esq., was called to the chair, and Chas. Wallace, Esq. chosen Secretary.

The Chairman made a few humorous and practical remarks, and J. R. Stewart, Esq., offered the following resolution:

That the enrolled members of this corps should be sworn in soon as possible.

Seconded by Major Foster, and carried unanimously.

Jas. Lowe, Esq., proposed the following:

That the members meet at the Court House at 2 o'clock to-morrow for the purpose of being sworn in.

A letter from Chief Justice Cameron was read, amid much applause, to the effect that "there need be no fears of fees for swearing in volunteers."

Mr. Treasurer Gordon seconded the resolution, which was adopted.

Following is the form of oath to be taken by each volunteer:

"OATH," to be taken by every person after being enrolled in a corps of volunteers:

"I do solemnly promise and swear that I will be faithful and bear true allegiance to Her Majesty Queen Victoria, and that I will faithfully serve Her Majesty in Her Colony of Vancouver Island, for the defence of the same against all Her enemies and opposers whatsoever. So help me God."

Major de Courcy moved the following:

That the name of the corps shall be the Vancouver Island Rifle Volunteers.

Seconded by Mr. Piddell in a few appropriate remarks.

Major Foster also made a few remarks, and was followed by Captain McKenzie, of H. M. S. Bacchante, who pledged the hearty support of Admiral Maitland to the movement. Captain McKenzie also asked that himself and Commander Somers, of the Bacchante, might be enrolled as honorary members of the corps.

Captain Richards followed, and said that Admiral Maitland, to whom powder and ball had been meat and drink for half a century was anxious to see the corps formed.

The third resolution was carried unanimously. Rev. Mr. Good proposed the fourth resolution:

That the members who have been sworn in and enrolled shall meet on Wednesday next at the Lyceum for the purpose of nominating a commanding officer.

Messrs. Cary, De Cosmos and Dickson, spoke to the resolution, which was unanimously adopted.

Mr. De Cosmos offered the following:

That the chairman, Mr. Stewart, and the Secretary be a committee to perfect arrangements until the commanding officer is appointed.

Seconded by Capt. McKenzie and carried unanimously.

Remarks were made by Messrs. Crease and Barnaby, and Mr. Cary moved a vote of thanks to Messrs. Stewart and Sprout for their exertions on behalf of this movement.

Carried with three cheers.

Mr. De Cosmos moved a vote of thanks to the Chairman and Secretary. Adopted, and the meeting adjourned singing the national anthem.

The meeting was one of the most enthusiastic and unanimous ever held in this Colony, and we have very little doubt but an organization will be perfected that will prove both a protection and a credit to the Colony.

CORONATION DAY.—Yesterday, the 23d anniversary of the coronation of Her Majesty Queen Victoria, was quietly observed by our residents. The public offices at James' Bay were closed during the day; but the members of the Legislature (disloyal subjects!) met and transacted a small amount of business. Royal salutes were fired from H. M. ships at Esquimaux at noon, and the vessels were dressed in holiday uniform, presenting a very gay appearance. Flags were displayed on private buildings at Esquimaux, and in this city, the engine and truck houses, government buildings, etc.

A party of jolly tars—comprising the starboard watch of H. M. S. Recate—hired John Guest to drive them about the city and seemed to enjoy themselves immensely. The promised parade of the marines to come off yesterday at Beacon Hill was a mistake.

SETTING A ROGUE TO WATCH A ROGUE.

A citizen, who had on several occasions recently lost many small articles, the other day placed a number of small coins in an exposed position, and set an ill-looking Chinaman to watch that no one took them. After an absence of about an hour, the citizen returned home, and was met by the Chinaman and told that an Indian employed about the house, had cabaged the most of the money. The luckless native was hustled off to prison. Yesterday, Mr. Pemberton, doubtless considering that it was an extremely difficult matter to decide which was the most likely to have taken the money, dismissed the case.

UP TO NO GOOD.—One Joseph White was found lurking about a private residence late on Thursday night by Superintendent Smith. He had in his possession three boxes of matches and was taken to prison. Yesterday morning he was discharged by the magistrate with a caution.

SCHOOL EXAMINATION.—Yesterday the scholars of Madame Pettibone's School, went through various exercises, such as singing, reading, declamation, recitation, &c., previous to taking a vacation. The examination was highly satisfactory. The school will reopen on Monday week.

DEATH AT THE HOSPITAL.—An old man named James Whitbread, who was afflicted with paralysis, died at the Hospital on Tuesday. He was an old Hudson Bay Company employe, and was admitted to the hospital on its opening day, two years and a half ago.

FREIGHT ON FRASER RIVER.—Freight from New Westminster to Hope is now \$18 per ton; to Yale, \$24, and to Douglas, \$25. The freight on the Otter from Victoria to New Westminster is \$3 per ton.

THE OTTER.—This steamer left for New Westminster at 12 o'clock yesterday with 85 tons of freight and 8 or 10 passengers. She is expected back to-night.

THE CONTRACT FOR erecting the six brick buildings on Wharf street, has been awarded to a Mr. Roach.

THE ALLEN BILL.—This most important measure will come before the House on Wednesday next, for a second reading.

THERE are 41 prisoners in jail—2 of which number are insane.

The Flag of Union.
Tune—"DIXIE'S LAND."
Come, Brothers, swell our royal chorus,
While the storm cloud lowers o'er us,
Look away, look away, look away, see the flag!
Look away, look away, look away, see the flag!
Brother, look! our flag is flying!
Look away, look away, look away, see the flag!
CHORUS.
Shall traitors dim its glory? never! never!
A gallant band around it stand to live and die for
Union.
Hurrah, hurrah, hurrah for the flag of Union!
Great Washington, whose farewell warning
Made us aware of treason's dawning—
Look away, look away, look away, see the flag!
Look away, look away, look away, see the flag!
Under the flag which his sword defend—
Look away, look away, look away, see the flag!
CHORUS.
Shall traitors, etc.

These are our foes in every section.
Who stir up strife and disaffection—
Look away, look away, look away, see the flag!
Preachers of strife and hate and discord
Shall one day die that they were born—
Look away, look away, look away, see the flag!
CHORUS.
Shall traitors dim its glory? never! never!
A gallant band around it stand to live and die for
Union.
Hurrah, hurrah, hurrah for the flag of Union!

PERSIAN ACCOUNT OF THE ORIGIN OF
WINE.—Jenabed, the founder of Persia, is
said to be the first who was immoderately fond
of grapes, and desiring to preserve some,
they were placed in a large vessel, and lodged in
a vault for future use. When the vessel was opened,
the grapes had fermented and their juice in this
state was so acid that the king believed it must be
poisonous. He had some vessels filled with it,
"poison" was written upon each, and they were
placed in his room.
It happened that one of his favorite ladies
was afflicted with a nervous headache, and the
pain distressed her so much that she desired death.
Observing a vessel with "poison" on it, she took
it and swallowed its contents. The wine, for such it
had become, overpowered the lady, who fell into a
sleep, and awoke much refreshed. Delighted with
the remedy, she repeated the dose so often that the
monarch's poison was all drunk. He soon discovered
this, and forced the lady to confess what she had done.
A quantity of wine was made, and Jenabed and
all his court drank of the new beverage, which, from
the circumstances that led to its discovery, is this
day known in Persia by the name of Jeher-e-K
shon, the delightful
poison!

FLOORING A FOP.—It does now and then hap-
pen that a fop who seeks amusement by poking
fun at the members of the Institute of France,
come off second best in the encounter. An in-
stance of this fact occurred the other evening at
a social reunion in the aristocratic parlour, at
which a well-known fop was present, and among
the rest a well-known student. "Thinking I ex-
posed the old gentleman to ridicule, without in the least
compromising myself, an impudent young ex-
cessively approached the academician, with an air
of pretended respect, and, in the hearing of several
ladies and gentlemen, to propound a grammatical
query.
"O, certainly," said the old gentleman, good-
humorously, "I will do my best to satisfy your
curiosity."
"Then, sir," returned the fop, "would you
please to tell me what the two expressions
are the most elegant, 'Give me some water,' or
'Bring me some water?'"
"Why," returned the academician, with an im-
pressible twinkle in the eye, "I should say
that, in your case, a more appropriate phrase
either would be, 'Lead me to water.'"
The questioner's curiosity was satisfied.

THE DUCHESS OF KINGSTON was remarkable
for having a high sense of her own dignity. Being
one day detained in her carriage by the unloading
of a cart of arms in a very narrow street, she leaned
with both her arms upon the door, and said to the
man.
"How dare you, sirrah, stop a woman of quality
in the streets?"
"Woman of quality?" replied the man.
"Yes, fellow," rejoined her grace. "Don't
you see my arms on my carriage?"
"Yes," replied he, "I do—and a pair of coarse
arms they are."

In Mr. Pycroft's "Ways and Words of Men
of Letters," we read a conversation with a
printer.
"Really," said the printer, "gentleman should
not place such unimpaired confidence in the eyesight
of our hand-worked and half-blinded reader
of proofs; for I am ashamed to say that we un-
wittingly ruined one poet through a printer's mis-
print."
"I do!" and what was the unhappy line?"
"Why, sir, the poet intended to say 'See the
pale martyr in a sheet of fire,' instead of which
we made him say, 'See the pale martyr with his
shirt on fire!'"

A Dutchman, looking for a person by the
name of Dunn, who owed him a "small account,"
asked a fellow near a cutting-house, as he wished
to find Mr. Dunn. The fellow told him to go into
the cutting-house, and the first person at the first
table was the gentleman he was looking for. The
Dutchman went in, about as slow as a jackass
towards a peck of oats, and this "first gentleman"
happened to be an Irishman.
"Are you a Dutch?" said the Dutchman.
"Do!" said Pat, "by my soul, I am only just
commenced!"

A lady riding in the cars a few weeks since,
found herself seated by the side of an old matron
who was exceedingly deaf.
"Mamma," said she, in a high tone, "did you
ever try the electricity?"
"What did you say, miss?"
"I asked you, if you ever tried electricity for
your deafness?"
"O yes, I did; it's only last summer I got
struck by lightning, but I don't see as it did me a
bit of good."

A sea captain, who was staying at a port in
London, was presented with a ticket to the opera.
While the performance was over, he was asked, by
his friend and how he liked it. "Well," answered the
captain, "I know very little about music, and
can't pretend to be a judge. I liked some things
pretty well; but I rather think that some of them
didn't know their business. There was one who
screamed and tore round, I thought, in an abnor-
mal way, and the folks round me thought so,
too. I guess, for they made her do it over a second
time!"

DRUGS & MEDICINES.
HEALTH FOR A SHILLING!
Holloway's Pills.
Headaches, Bile, Loss of Appetite, and
Lowness of Spirits.
These Pills require no interruption of business or
pleasure; they act mildly on the bowels, strengthen
the stomach, and promote a healthy action of the
liver, whereby they purify the blood, cleanse the
skin, brace the nerves, and invigorate the whole sys-
tem. They effect a truly wonderful change in deli-
cious constitutions, as they create a healthy appetite,
correct indigestion, remove bile, giddiness, head-
aches, and palpitation of the heart.
Weakness and Debility.
In cases of debility, languor, and nervousness gen-
erated by excess of any kind, whether mental or phys-
ical, the effect of these Pills is in the highest degree
beneficial, rousing and restoring the system. They drive
from the system the morbid cause of disease; re-es-
tablish the digestion, regulate all the secretions, brace
the nervous system, raise the patient's spirits, and
bring back the frame to its pristine health and vigor.
They increase the appetite, and induce a secure and
tasteful and all ordinary food, and release the invalid
from restraint in diet.
A Word to Females.
There are two periods, especially in Woman's life,
which require safe passage, judgment and atten-
tion. Irregularity is apt at those critical times to
take place, and to lay the foundation of future dis-
ease. These Pills, taken in action, and effective in re-
sult, should be taken at certain periods, and the issue
will be marvellous both to the young and the middle
aged. They prevent nervousness, hysterics, dropsy,
and a host of similar serious disorders, by expelling
all impurities from the system, therefore none should
ever be without them.
Coughs, Colds, and Asthmas.
No medicine will cure colds so quickly as these
Pills, when of long duration or settled on the chest,
or even those that has assumed the form of whoop-
ing cough, may be relied on as a certain and never
failing cure, particularly if the Ointment be well rub-
bed into the chest and throat night and morning. If
this catch the eye of any asthmatic person so bad
as even not able to lie down in bed, let him well use
these two preparations for only a week, and the re-
sult will be beyond all praise.

Blood to the Head.—Diseases of the Heart.
More persons die suddenly from diseases of the
heart than the unlearned suppose: in such com-
plaints, the bowels should always be kept well open,
as also where there is a tendency of blood to the
head. These celebrated Pills purify the blood in an
extraordinary manner, and should be taken in con-
junction with such symptoms occur, taking care
not to overload the stomach; by this means all danger
is quickly averted.
Children's Complaints.
It is not generally known, but such is the fact, that
children require medicine oftener than their parents,
three-fourths of the children die before they attain
the age of eight years. Let mothers, then, be wise,
and give their children the famous Holloway's Kid-
ney Pills once or twice every week, in such quan-
tity as may act gently upon the system twice in the
twenty-four hours. For infants, a 1/4 may be crushed
and given as a powder in a little water. The gross
humors that are constantly eating about in the
blood of children, such symptoms occur, by expelling
them, will thus be expelled, and the lives of thou-
sands saved and preserved to their parents.
Holloway's Pills are the best remedy known in the
world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throats
Asthma	Erysipelas	Jaundice	Stomach
Bilious Com- plaints	Gout	Liver Disor- ders	Secondary Symptoms.
Blisters on the Skin	Headache	Lumbago	Tec-doulou- reux
Blood Com- plaints	Hemorrhoids	Phlegm	Tumors
Cold	Indigestion	Rheumatism	Ulcers
Constipation	King's Evil	Retention of Urine	Venereal Af- fections
Croup	Scalds	Scrofula	Weakness, from what- ever cause
Debility	Worms of all kinds	Scrofula	

There is a considerable saving by taking the
larger sizes.
N. B.—Directions for the guidance of patients in
every disorder are affixed to each Box.

Greeley's Bourbon Bitters.
THE POPULARITY OF THESE BIT-
TERS is justly due to the purity of the materials
of which they are prepared, and the delicate com-
bination of simple alteratives and tonics so well cal-
culated to act upon every part of the digestive organs,
and through them to reach and cure all complaints
arising from a diseased condition of the stomach
and bowels.
Greeley's Bourbon Whiskey Bitters
are highly nourishing and fattening, and as a Tonic
for old people, delicate ladies, consumptive patients,
and all weakly persons, they cannot be surpassed. In
all cases of Weakness or Debility, they will give im-
mediate relief, and impart strength, health, and
vigor. For the cure of Dyspepsia, Indigestion,
Nervous Diseases, Liver Complaints, Weakness,
or Debility, Flatulency and Nausea, and all complaints
consequent upon a disordered state of the stomach,
Liver and Bowels, they are not equalled. As an agree-
able and healthful beverage, they are much preferred
to the appetite, brighten the intellect, and infuse new
life and vigor. No one who uses these Bitters can be
subject to an attack of Fever and Ague or Diarrhea.
Put up in quart Bottles, in cases of one and two
dozen, and for sale by Druggists, Grocers and Liquor
Merchants everywhere.
GEO. W. SNELL, General Agent,

San Francisco.
For sale by W. H. OLIVER, Victoria.

Old Sackem & Wigwam
Bitters & Tonic.
THESE UNEQUALLED BITTERS
are a Tonic and a powerful purgative, with unparalleled
sale, and favor with consumers. In all cases of
DYSPEPSIA, DEBILITY, LOSS OF APPETITE, or
any irregularity of the stomach, they will be found
an efficient remedy, as well as a most wholesome and
agreeable Food.
As a preventive of Chills and Fever, they have no
equal, and have with thousands become an indispen-
sable family medicine; being perfectly pure, and free
from any deleterious substance, can be taken by all,
young and old, male and female, with benefit.
